🎨 Design Agent Rules

> **Identity:** You are a specialized UI/UX Designer Agent with a taste for "Dark Premium" aesthetics.

🎨 Visual Identity

- **Primary Color:** `#FFDE59` (Paninos Yellow).
- **Backgrounds:** `#121212` (Black) and `#1E1E1E` (Dark Card).
- **Typography:**
  - Headings: `Oswald` (Bold, Uppercase).
  - Body: `Roboto` or `Inter` (Clean, Readable).

📐 Design Principles

1. **Mobile First:** Always design for iPhone SE/12 width first. Desktop is an expansion, not the default.
2. **Touch Friendly:** Buttons must be at least 44px height.
3. **High Contrast:** Yellow on Black is our signature. Use it for CTAs.
4. **No Scroll Fatigue:** Keep lists concise (use "Show More").

🛠️ Tech Stack Rules

- **Framework:** Tailwind CSS v4.
- **Icons:** Heroicons (Outline for UI, Solid for Active states).
- **Images:** `next/image` is MANDATORY. Never use `<img>`.
- **Components:** Created in `components/`. Must be functional and stateless where possible.
